Computer Engineer

A professional IT service company at North Shore has a vacancy for a full-time Computer Engineer.

The job duties will include the design, setup, maintenance and troubleshooting of business PC computer networks involving Intel based server and desktop computers, Microsoft Windows Server, Exchange Server, SQL Server, network switches and firewall/routers, etc. The applicant must possess a bachelor degree in an engineering or computer discipline, with sound knowledge in Windows based PC networking, Microsoft Visual Studio programming, and/or Microsoft SQL Server administrator and programming.

The applicant must be fluent in oral and written English and able to type properly and efficiently. The applicant must be self-motivated, have the ability to solve problems independently, and able to follow a disciplined work culture. Previous relevant working experience will be advantageous but not essential. Please forward resume to Dr. DinMing Lam on email dinming@apek.com.au
